# Art Workshops for Corporate Events

# About Us

**Room To Imagine** is an art studio in Singapore specialising in **Acrylic Pour** and **Resin Pour Art** workshops. Having taught students aged 4 to 82, we believe that anyone with an open mind can learn to create art.

During our workshops, we encourage participants to let go of any pre-conceptions about themselves and the art form. To indulge in some good old messy fun and get in touch with their creative side.

Customisable canvas size  
based on budget

## Resin Crystal Canvas

Includes use of crystals bits  
and natural stones

All workshop durations are an estimate and may be customised for your requirements.  
Contact us for more details and sample photos for each workshop.

# Other Team Activities

There are many ways we can help bring out the creativity in your guests. Discuss with us to tailor an experience for your needs!

## **Mural Party**

A great side-activity for events and parties. A huge canvas is supplied and everyone adds their own creative touch to it. The canvas and materials is set up for the duration of the party for guests to use whenever.

## **Art Jamming**

Individual canvases and tools are set up for everyone to express their imagination. A great activity to foster creativity and create bonding time for participants as they get to paint and chat over two hours.

All workshop durations are an estimate and may be customised for your requirements. Contact us for more details and sample photos for each workshop.

# Key Differences (Acrylic Pour vs Resin Pour)

1. **Medium:** Acrylic Pour uses Acrylic Paint and Pouring Medium while Resin Pour uses Epoxy Resin and Colour Pigments/Inks.
2. **Techniques:** The two mediums uses different techniques, with Acrylic Pour having a wider range of techniques.
3. **Finish:** Resin dries to a glossy water-like finish while Acrylic dries to a matte or satin finish.
4. **Cost:** Resin is generally pricier than Acrylic due to the cost of materials, primarily the medium (resin) and the disposable tools that has to be replaced with every workshop.
5. **Drying Time:** Acrylic Pour dries in 1-2 days, while Resin dries in 24 hrs

# Workshop Prices

Kindly provide the following details when contacting us so we may work out an accurate quote:

1. Date/Time
2. Duration
3. Number of Participants
4. Venue
5. Preferred Workshop
6. Budget (if any)
7. Any other requirements
